Each Sports Panther is unique and programmatically generated from over 70 possible traits, including expression, headwear, sports clothing, fur color and more. All panthers are smashing it, but some are rarer than others.

The panthers are stored as ERC-721 tokens and hosted on IPFS. Purchasing a panther costs 0.5 ETH for everyone and there are no bonding curves here.

To access the members only area, "THE BET OFFICE", Panther holders need to be signed into their Metamask wallet.

# THE BSBC BET FUND

## How does GSN use the profits from the BSBC token Sale?

GSN and it's strategic Sports Betting and Sports Day Trading partners, continuously use our Proprietary Sports Betting and Sports Day Trading Software information and implement Sports Bets and Sports Trades daily generating historical annual profits... Now we are offering to do the same for our exclusive community of BETO token holder's by using a portion of the funds/profits of the NFT token purchases by gifting \$200K into what we are calling a BETTING FUND, once all of the limited tokens/offerings have sold out!!!! Once realized and sold out, this \$200K will be put into capital account/bankroll that we call the BETTING FUND, for our exclusive use in Sports Betting and Day Trading with hopes of using our proprietary sports betting and sports day trading software's information and platform to self-perform in hopes to grow the Betting Fund for NFT token owners and GSN trading partners for distribution by majority electronic vote at the end of each calendar year. Note that historical annual return rates have eclipsed +40% to +80% annually... Although no guarantees expressed or written, here's how the community fund could develop over the next 3 years if the BETTING FUND realizes the historical returns after the NFT Tokens have been sold:

**2022 (40% Return)**

**\$280K**

**2023 (80% Return)**

**\$504k**

**2024 (60% Return)**

**\$806.4k**

*Note: if the community decides to cash out the community fund will split in same parts through the total amount of BSBC token holders.*

# THE STORY OF GSBN

GSBN was founded based on the experiences of our CEO and founder Rod Vermillio, who spend the past 20 years building and optimizing a leading sports league analysis software. After investing \$250k of his own money season over season he realized that he was able to generate a predictable profit of 40-80% in average per season by betting based on the information from the software.

Together with the online entrepreneur Yannic Vollmer he decided to build a whole new company named GSBN in 2021 to share the sports bet information with everyone in the bet industry that comes with a kind of investor mindset. And who is interested to stop the gambling game and to make predictable profits from sports betting each and every season.

As we tested the GSBN products for the past 10 month with some selected partners we are now launching the platform now officially where the NFT community will play the fundamental role of building a sports betting elite company.

# THE BEST YEAR IN HISTORY

Today we can guarantee our members a return from 40% to 80% and we can proof it based on the bets GSNB does each and every monthly with our own money. 2022 was so far the best year in the history of our sports betting journey. In total we was able to generate over 220% in return and the year is even not at its end. Our mission is to enable every of our community members to do the same.
